Ms Angelia, none of the spray coatings contain compounds of chromium (Cr), lead (Pb), manganese (Mn), nickel (Ni), or cadmium (Cd). I will try to get the revised Environmental Compliance Plan for Entera to you today. If any problems arise you will have it first thing Monday morning.

Thank you,

Sherrie Biddles *Safety Manager*

Sherrie,
Thanks so much for the quick response but as it relates to question #2 (below) does the spray coatings contain compounds of chromium (Cr), lead (Pb), manganese (Mn), nickel (Ni), or cadmium (Cd)?

Also will the revised Environmental Compliance Plan (ECP) be sent today or next week?

Thanks,

Angelia

Good morning Ms. Angelia, answering your questions pertaining to the spray coatings; we **do not** spray motor vehicles or motor equipment and **none** of our spray coatings contain Cr, Pb, Mn, Ni, or Cd.

Thank you,

Sherrie Biddles *Safety Manager*

Hi Sherri,

I have a few follow-up questions to the permit renewal application that was received by the Department on May 27, 2011. Does the facility engage in any of the following:

1. Spray application of coatings to motor vehicles and mobile equipment;

2. Spray application of coatings to a plastic and/or metal substrate where the coatings contain compounds of chromium (Cr), lead (Pb), manganese (Mn), nickel (Ni), or cadmium (Cd).

Please respond as soon as possible.

Thanks,

Angelia Jackson
