Subject: Application Questions

Previously I tried to contact Mr. Paul O'Connor (Application Contact) and Ms. Dorothy Harris (Authorized Rep) on December 26, 2012 and left a voice message.

I contacted Mr. O'Connor on January 9, 2013 to discuss if the facility would like a limit on the hours of operation as indicated in renewal application 0050026-006-AO, of 6,000 hours per year. Mr. O'Connor was not sure, but based the hours on previous applications. After further review of the previous permitting history the facility will retain unlimited hours but continue with limits on production.
