REQUIREMENTS FOR INTERNAL COMBUSTION ENGINES

This Title V Facility contains stationary internal combustion engines that have been exempted from the requirement to obtain an air construction permit because they qualify for one of the categorical exemptions listed in Rule 62-210.300(3)(a), Florida Administrative Code (F.A.C.). However, they are included in this permit as regulated emissions units because they are subject to the following federal rule:

- 40 CFR 60, Subpart IIII – Standards of Performance for Stationary Compression Ignition Internal Combustion Engines.
- 40 CFR 63, Subpart ZZZZ—National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines.

The below listed engines are subject to the specified federal rule.

E.U. ID No.	Brief Description of Engine	In-Service Date	Cylinder Displacement	Rated Horsepower	Rule Applicability
013	Generator No. 1 Manufacturer: Perkins Model No. 2806C-E16TAG1 Capacity: 500 KW Date of Manufacture: 5/4/2006 Date Ordered: 7/10/2006	4/3/2007	18.5L	590	IIII
013	Generator No. 2 Manufacturer: Perkins Model No. 2806C-E16TAG2 Capacity: 500 KW Date of Manufacture: 5/4/2006 Date Ordered: 7/10/2006	4/3/2007	18.5L	590	IIII
013	Generator No. 3 Manufacturer: Caterpillar Model No. IS-XQ350 Capacity 500 KW Date of Manufacture: 7/22/2000	4/11/2006	14.6L	475	ZZZZ

The engines listed above are currently demonstrating compliance with the emissions limitations of the applicable federal rule through the retention of a manufacturer's certification statement. So long as that certification is able to be retained, no additional compliance demonstration is required. At such time that the manufacturer's certification is no longer valid (i.e. due to operation or maintenance practices that are inconsistent with the manufacturer's recommendations), the permittee shall begin demonstrating compliance with the standards listed in the applicable federal rule (included in the appendices as an enforceable part of this permit) in a manner that is prescribed by that rule.
