Mr. Normand McAllister, Jr., President
Gulf Terminal Corporation
Panama City Marine & Rail Terminal
122 South Center Avenue
Panama City, Florida 32401

Dear Mr. McAllister:

This is in response to your request, received March 3, 2010 (DEP Project No. 0050045-008-AC), to extend the expiration date of Permit 0050045-007-AC for the Gulf Terminal Corporation Panama City Marine & Rail Terminal in Bay County.

Your request is to extend the expiration of air construction permit 0050045-007-AC for five years. However, the response to the recent Request for Additional Information seemed to indicate that the facility has not been constructed and is not operating exactly according to construction permit 0050045-007-AC (for example: elevated day tanks' operating temperatures, control equipment that includes cap condensers without a flare, references made to hot pits and loading racks located at the old Whitaker Oil facility, etc.). A revised air construction permit application that reflects future construction plans, actual construction and current operation of the facility must be submitted within 90 days from the date of this letter. [Rules 62-4.030 and 62-4.160(2), F.A.C.]

By this letter, air construction permit 0050045-007-AC is extended for one year to expire on June 13, 2011. A copy of this letter shall be attached to and made a part of Permit 0050045-007-AC.

If you have any questions, please contact Debbie Moore at 850/595-8300 extension 1230, or Deborah.L.Moore@dep.state.fl.us.

Sincerely,

/s/

Rick Bradburn
Air Program Administrator
