NOTICE OF FINAL TITLE V AIR OPERATION PERMIT REVISION

In the Matter of an
Application for Permit Revision:

Mr. Chris Preslock	Final Permit Project No.: 0310050-022-AV
Site Leader	Jacksonville Plant
Owens Corning Roofing and Asphalt, LLC 1035 Talleyrand Ave. Jacksonville, Florida 32206	Duval County

Enclosed is the Final Permit, No. 0310050-022-AV. The purpose of this permit is to revise Title V Air Operation Permit No. 0310050-018-AV to incorporate the terms and conditions of permit No. 0310050-019-AC, which authorized the replacement of the existing dust collectors for the Limestone Filler Heater (EU 003) and the Sand System used to control particulate matter emissions from these sources. The previous Sand System control unit vented to the control system for the Bulk Granule Handling System (EU 029). The new control unit for the Sand System was reconfigured to be exhausted to the atmosphere and no longer vent to EU 029. The Sand System is now classified as a new emissions source (EU 045). This permit revision also includes requested changes to the dust collector models replacement to reflect actual installation and operation at the facility for the existing Limestone Filler Heater (EU 003) and the New emissions unit Sand System (EU 045).

There were **no** comments received from Region IV, U.S. EPA, regarding the Proposed Permit.

Any party to this order (permit) has the right to seek judicial review of the permit pursuant to Section 120.68, F.S., by the filing of a Notice of Appeal pursuant to Rule 9.110, Florida Rules of Appellate Procedure, with the Clerk of the Department in the Legal Office; and, by filing a copy of the Notice of Appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The Notice of Appeal must be filed within 30 (thirty) days from the date this Notice is filed with the Clerk of the Department.

Executed in Jacksonville, Florida.
