LIST OF INSIGNIFICANT EMISSIONS UNITS AND/OR ACTIVITIES.

The facilities, emissions units, or pollutant-emitting activities listed in Rule 62-210.300(3)(a), F.A.C., Categorical Exemptions, or that meet the criteria specified in Rule 62-210.300(3)(b)1., F.A.C., Generic Emissions Unit Exemption, are exempt from the permitting requirements of Chapters 62-210, 62-212 and 62-4, F.A.C.; provided, however, that exempt emissions units shall be subject to any applicable emission limiting standards and the emissions from exempt emissions units or activities shall be considered in determining the potential emissions of the facility containing such emissions units. Emissions units and pollutant-emitting activities exempt from permitting under Rules 62-210.300(3)(a) and (b)1., F.A.C., shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if they are contained within a Title V source; however, such emissions units and activities shall be considered insignificant for Title V purposes provided they also meet the criteria of Rule 62-213.430(6)(b), F.A.C. No emissions unit shall be entitled to an exemption from permitting under Rules 62-210.300(3)(a) and (b)1., F.A.C., if its emissions, in combination with the emissions of other units and activities at the facility, would cause the facility to emit or have the potential to emit any pollutant in such amount as to make the facility a Title V source.

The below listed emissions units and/or activities are considered insignificant pursuant to Rule 62-213.430(6), F.A.C.

Brief Description of Insignificant Emissions Units and Activities

1. MDI from foam injections and press heating. 2. Metal dust from filters on the metal grinders. 3. Sawdust from wood machining. 4. Dust from baghouses servicing belt sanders and sandblasters. 5. Dust from manual foam and resin parts cleaning and sanding. 6. Fumes from metal machining coolants. 7. Welding equipment. 8. Emissions from flammable materials dispensing and storage areas. 9. Emissions from gas cylinders and propane cylinders. 10. Emissions from water-based paint manual touch-ups.	11. Emissions from waste cleaning rags. 12. PM from fabric waste cutting and sewing. 13. Emissions from decal adhesive process. 14. Combustion emissions from mobile sources. 15. Janitorial sources and consumer use of janitorial products. 16. Bathroom/toilet vent emissions. 17. Plant maintenance and upkeep activities. 18. Plant maintenance and upkeep activities. 19. Air compressors and pneumatically operated equipment. 20. Minor combustion sources.
