NOTICE AND PUBLICATION

The Permitting Authority distributed a draft minor air construction permit package on 08/25/2014. The applicant published the Public Notice in the Lakeland Ledger on 08/29/2014. The Permitting Authority received the proof of publication on 09/04/2014.

COMMENTS

No comments on the draft permit were received from the public or the applicant. During the Department's review process a clause in the draft permit concerning a permit application fee was discovered. This clause is not needed as the facility is currently operating under a Title V permit and is not subject to such fees. The unnecessary clause was removed and Administrative Requirement 9 re-lettered.

CONCLUSION

The changes that have been made are insignificant in nature and do not impose additional public noticing requirements. The permitting authority hereby issues the FINAL Permit with the changes noted above.
