Appendix I-1, List of Insignificant Emission Units and/or Activities

Department of the Navy **Draft/Proposed Permit No.: 0310213-023-AV**
Naval Station, Mayport

The facilities, emission units, or pollutant-emitting activities listed in Rule 62-210.300(3)(a), FAC, Categorical Exemptions, are exempt from the permitting requirements of Chapters 62-210 and 62-4, FAC; provided, however, that exempt emission units shall be subject to any applicable emission limiting standards and the emissions from exempt emission units or activities shall be considered in determining the potential emissions of the facility containing such emission units. Emission units and pollutant-emitting activities exempt from permitting under Rule 62-210.300(3)(a), FAC, shall not be exempt from the permitting requirements of Chapter 62-213, FAC, if they are contained within a Title V source; however, such emission units and activities shall be considered insignificant for Title V purposes provided they also meet the criteria of Rule 62-213.430(6)(b), FAC. No emission unit shall be entitled to an exemption from permitting under Rule 62.210.300(3)(a), FAC, if its emissions, in combination with the emissions of other units and activities at the facility, would cause the facility to emit or have the potential to emit any pollutant in such amount as to make the facility a Title V source.

The below listed emission units and/or activities are considered insignificant pursuant to Rule 62-213.430(6), FAC.

Brief Description of Emission Units and / or Activities

1. Abrasive blast booth located at 2195 Bon Homme Richard Road which vents inside building
2. List of Insignificant Emission Units or Activities identified in the permit application as Appendix A-1, dated 07/09/2013 (attached)

Note: Internal Combustion Engines and tanks of the Gasoline Dispensing Facilities listed in Appendix A-1 have been added to the permit.
