Appendix U-1, List of Unregulated or Exempt Emission Units

American Technical Ceramics (FL), Inc.

Permit Number: 0310374-003-AF
Facility ID Number: 0310374

Unregulated Emission Unit: An emission unit (EU) which emits no "emissions-limited pollutant" and which is subject to no unit-specific work practice standard, though it may be subject to regulations applied on a facility-wide basis (e.g., unconfined emissions, odor, general opacity) or to regulations that require only that it be able to prove exemption from unit-specific emissions or work practice standards.

Exempt Emission Unit: An emission unit not required to be permitted in accordance with 62-210.300(3)(a) or (b). Exemption from the requirement to obtain an air permit does not relieve the owner or operator of a facility or emissions unit from complying with any limitation or requirement applicable to such facility or emissions unit.

The below listed emission units and/or activities are either "unregulated" emission units or "exempt" emission units.

EU Description	Explanation
Emergency Generators (3)	These units are exempt from permitting as long as they meet the requirements of Rule 62-210.300(3)(a)35, F.A.C. These units are exempt from both 40CFR63 Subpart ZZZZ in accordance with 40CFR63.6590(b)(3)(vii) and 40CFR60 Subpart IIII in accordance with 40CFR60.4200(a)(2)(i).
Dust Collectors (3)	These units are exempt from permitting as long as they meet the requirements of Rule 62-210.300(3)(b)1.c, F.A.C.
