APPENDIX I

LIST OF INSIGNIFICANT EMISSIONS UNITS AND/OR ACTIVITIES.

The facilities, emissions units, or pollutant-emitting activities listed in Rule 62-210.300(3)(a), F.A.C., Categorical Exemptions, or that meet the criteria specified in Rule 62-210.300(3)(b)1., F.A.C., Generic Emissions Unit Exemption, are exempt from the permitting requirements of Chapters 62-210, 62-212 and 62-4, F.A.C.; provided, however, that exempt emissions units shall be subject to any applicable emission limiting standards and the emissions from exempt emissions units or activities shall be considered in determining the potential emissions of the facility containing such emissions units. Emissions units and pollutant-emitting activities exempt from permitting under Rules 62-210.300(3)(a) and (b)1., F.A.C., shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if they are contained within a Title V source; however, such emissions units and activities shall be considered insignificant for Title V purposes provided they also meet the criteria of Rule 62-213.430(6)(b), F.A.C. No emissions unit shall be entitled to an exemption from permitting under Rules 62-210.300(3)(a) and (b)1., F.A.C., if its emissions, in combination with the emissions of other units and activities at the facility, would cause the facility to emit or have the potential to emit any pollutant in such amount as to make the facility a Title V source.

The below listed emissions units and/or activities are considered insignificant pursuant to Rule 62-213.430(6), F.A.C.

Brief Description of Insignificant Emissions Units and Activities

1. Steam cleaner.	15. Magnetic particle inspection.
2. Hot pressure washing station.	16. Aqueous cleaning baths.
3. Parts washer utilizing non-HAP VOC's.	17. Wax tanks.
4. Solvent cleaning activities.	18. Electric ovens.
5. Self-contained media blasters.	19. Machine shop and related machining operations.
6. Plastic media blast booth.	20. Various plating department rinse water tanks.
7. Aluminum oxide blast booth.	21. Hazardous materials and hazardous waste storage.
8. Nital etch line.	22. Maintenance operations including welding.
9. Cadmium and nickel strip lines.	23. Laboratory equipment and chemicals.
10. Electroless nickel plating line.	24. Propane storage tanks.
11. Passivation, chrome strips, ultrachromate 300 tanks.	25. Fire and safety equipment.
12. Industrial wastewater treatment plant and evaporator/condenser.	26. Hot water heaters.
13. Chromate conversion and alodine coating lines.	27. Refrigerators.
14. Fluorescent penetrant inspection.
