PROJECT

Air Permit No. 1050365-006-AC
Minor Air Construction Permit
Eaton Park Facility

The applicant proposes to replace Emission Unit No. 004 – Small Pellet Mill's cyclone used to control particulate matter emissions with a like-kind custom fabricated cyclone.

NOTICE AND PUBLICATION

The Permitting Authority distributed a draft minor air construction permit package on July 13, 2012. The applicant published the Public Notice in The Ledger on July 17, 2012. The Permitting Authority received the proof of publication on July 20, 2012. No requests for administrative hearings or requests for extensions of time to file a petition for administrative hearing were received.

COMMENTS

Only one (1) comment was received from Lakeland Animal Nutrition, Inc.'s consultant, Mr. Lynn Robinson of Southern Environmental Sciences, Inc.

Applicant

On July 13, 2012, Lakeland Animal Nutrition, Inc.'s consultant, Mr. Lynn Robinson telephoned Mr. Jim McDonald of the Department regarding the draft minor construction permit package.

- *Comment:* During the telephone call he stated the permit package did not make reference that the facility is subject to 40 CFR 63, Subpart DDDDDDD – National Emission Standards for Hazardous Air Pollutants for Area Sources: Prepared Feeds Manufacturing as noted in the application.
- *Response:* The Technical Evaluation and Preliminary Determination incorrectly stated that "There is no applicable source category" regarding "Rule 62-204.800, F.A.C. National Emission Standards for Hazardous Air Pollutants for Source Categories a.k.a. MACT (NESHAPS –40 CFR 63)". Therefore, the following statement has been added to the end of the FACILITY REGULATORY CLASSIFICATION on Page 4 of 11 in the FINAL PERMIT, since this regulation is applicable and federally enforceable, but not state enforceable:

"The facility is subject to 40 CFR 63, Subpart DDDDDDD – National Emission Standards for Hazardous Air Pollutants for Area Sources: Prepared Feeds Manufacturing. The State of Florida has not adopted this regulation as of the effective date of this permit."

- The Technical Evaluation and Preliminary Determination is also revised to indicate the facility is subject to the requirements of 40 CFR 63, Subpart DDDDDDD.

CONCLUSION

The changes that have been made are insignificant in nature and do not impose additional public noticing requirements. The permitting authority hereby issues the FINAL PERMIT with the changes noted above.
