Appendix I-1: List of Insignificant Emissions Units and/or Activities.

Marathon Petroleum Company LP
Permit No.: 0570080-037-AV
Tampa Light Products Terminal Facility ID No.: 0570080

The facilities, emissions units, or pollutant-emitting activities listed in Rule 62-210.300(3)(a), F.A.C., Categorical Exemptions, are exempt from the permitting requirements of Chapters 62-210 and 62-4, F.A.C.; provided, however, that exempt emissions units shall be subject to any applicable emission limiting standards and the emissions from exempt emissions units or activities shall be considered in determining the potential emissions of the facility containing such emissions units. Emissions units and pollutant-emitting activities exempt from permitting under Rule 62-210.300(3)(a), F.A.C., shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if they are contained within a Title V source; however, such emissions units and activities shall be considered insignificant for Title V purposes provided they also meet the criteria of Rule 62-213.430(6)(b), F.A.C. No emissions unit shall be entitled to an exemption from permitting under Rule 62.210.300(3)(a), F.A.C., if its emissions, in combination with the emissions of other units and activities at the facility, would cause the facility to emit or have the potential to emit any pollutant in such amount as to make the facility a Title V source.

The below listed emissions units and/or activities are considered insignificant pursuant to Rule 62-213.430(6), F.A.C.

Brief Description of Emissions Units and/or Activities

1. Routine maintenance and repair activities.
2. Tanks AA1-08 and AA1-09 for the storage of diesel dye at the loading racks.
3. Quality control laboratory for product quality testing.
4. Loading of PCW onto barges or vacuum trucks.
5. Tank WA-8-1 for the storage of storm water accumulated from the barge off-loading area.
6. Tank WA-20-1 for the storage of effluent from the oil/water separator and any portable skid or frac tanks that hold this effluent.
7. Tanks 130-101, 60-102, 20-104, and 50-103 for the storage of asphalt cement.
8. Tanks AA-8-107 and AA-8-108 for the storage of asphalt cement additives.
9. Loading of asphalt tank trucks.
10. Tank AA-8-7 for the storage of diesel lubricity additive.
11. PCW storage tanks.
12. 355-kw Cummins emergency generator diesel engine.
