PROJECT

Air Permit No. 1130014-008-AC
Title V Source Air Construction Permit
Blackjack Creek Facility

This permit increases the SO_2 limit for emissions unit (EU) 010, the flares, and adds specific conditions to EU 013, the stationary reciprocating internal combustion engines (RICE) and 163 HP emergency fire pump engine. The permit application requested an increase in the SO_2 emissions limit for the flares because the composition of the stream changes as the Blackjack Creek field ages and may contain pockets with increased H_2S. The requested increase required an air construction permit. The facility requested that this construction permit be processed concurrently with the Title V air operation Permit No. 1130014-007-AV renewal.

NOTICE AND PUBLICATION

The Department distributed a draft Title V source air construction permit package on August 28, 2014 and a revised draft Title V source air construction permit package on October 23, 2014. The applicant published the Public Notice in the Pensacola News Journal on October 25, 2014. The Department received the proof of publication on October 30, 2014. No requests for administrative hearings or requests for extensions of time to file a petition for administrative hearing were received.
