CP1.1. Compliance Schedule. The facility has been issued Construction Permit No. 1230001-037-AC which authorized the construction of the transformer process, in which a portion of the bleached pulp from the No. 2 Purification Plant is chemically treated, dried and baled. No. 2 Paper Machine: The permittee is authorized to replace four dryer drums and to add two additional drums and an additional steam flash tank.

At the time of the Title V Revision application submittal, the Permittee had not completed construction on the No. 2 Paper Machine or demonstrated compliance with the terms and conditions of the air construction permit.

This unit is on the Unregulated EU and or Activities list and no testing is required after construction is complete.

Because the applicant included the No. 2 Paper Machine process in the Title V Operation Permit Revision application, a Compliance Plan has been incorporated into this Title V Operation Permit to address the requirements of the air construction permit. The permittee shall meet the following milestone for the No. 2 Paper Machine:

Milestone	**Milestone Date**
1. Installation and operation of the No. 2 Paper Machine: The permittee is authorized to replace four dryer drums and to add two additional drums and an additional steam flash tank. [Application No. 1230001-037-AC]	Pursuant to the timeframes established in the air construction permit.
The facility shall notify the Department's NED Office in writing after the No. 2 Paper Machine completes construction.	15-days after construction is complete, but no later than 180-days after start-up.
Responsible Official to submit the Notification of Compliance Status as required by the terms of the air construction permit	No later than 60 days after determining the initial 12 operating month's compliance ratio. The notification of compliance status is generally due no later than 20 calendar months after initial startup.
Once the Permittee successfully demonstrates completion of construction, then compliance with Appendix CP-1 is complete. Permitting and Compliance demonstrations shall resume in accordance with the specific conditions of the Title V Permit.
