PROJECT

Final Air Permit No. 0310004-025-AC
Air Construction Permit
Gevalia and Tassimo Roasted Bean Processing Systems Modification

The applicant, Kraft Foods Group, Inc., Maxwell House Coffee applied on June 23, 2014 to the Permitting Authority for a permit to authorize the modification of the Gevalia and Tassimo Roasted Bean Processing Systems which includes the addition of Emission Unit No. 562 for the installation of three Decaff Bins each controlled by a Farr Gold Series 2 Bin Vent Filter for the storage of Gevalia decaffeinated green beans, the addition of Emission Unit No. 563 for the installation of a Green Silo Decaff #5 and a Farr Gold Series 2 Dust Collector for the storage of Gevalia decaffeinated green beans, the addition of Emissions Unit No. 564 for the installation of a Green Silo Caff #4 and a Farr Gold Series 2 Dust Collector for the storage of Gevalia or Tassimo caffeinated green beans, and the addition of Emission Unit No. 565 for the installation of two Probat Premium Destoners and a Farr Gold Series 12SQ Baghouse for the handling of roasted Gevalia/Tassimo beans.

NOTICE AND PUBLICATION

The Department distributed a draft air construction permit package on July 2, 2014. The Public Notice of Intent to Issue Permit was published in the Financial News and Daily Record on July 7, 2014. Proof of publication of the Public Notice of Intent to Issue Permit was received by the Permitting Authority on July 8, 2014.

COMMENTS

No comments on the Draft Permit were received from the public. A comment was received on July 3, 2014 from Mr. George Whitmer on behalf of the applicant. The comment is restated below.

1. Page 2 of 6 of the Technical Evaluation and Preliminary Determination, Facility Description and Location. It is incorrectly stated that the Kraft Foods Group, Inc., Maxwell House Coffee facility produces roasted coffee with continuous roasters. The continuous roasters are no longer located at the facility. It is requested that, “and continuous” be removed from the first sentence in this description.

Response: Based on the comment the first sentence in the Facility Description and Location of the Technical Evaluation and Preliminary Determination (Page 2 of 6) is corrected as requested. In addition, any references to continuous roasters in the permit document have also been removed.

CONCLUSION

The final action of the Permitting Authority is to issue Air Construction Permit No.: 0310004-025-AC as proposed in the Technical Evaluation and Preliminary Determination with the changes noted above.
