LIST OF UNREGULATED EMISSIONS UNITS AND/OR ACTIVITIES

Unregulated Emissions Units and/or Activities. An emissions unit which emits no "emissions-limited pollutant" and which is subject to no unit-specific work practice standard, though it may be subject to regulations applied on a facility-wide basis (e.g., unconfined emissions, odor, general opacity) or to regulations that require only that it be able to prove exemption from unit-specific emissions or work practice standards.

The below listed emissions units and/or activities are neither 'regulated emissions units' nor 'insignificant emissions units'.

E.U. ID No.	**Brief Description of Emissions Units and/or Activity**
007	Miscellaneous VOC/HAP Emissions - including: - paint mixing room -isopropyl alcohol hand cleaning using plunger cans and squeeze applicator bottles (cleaning not associated with the printing operations) -Thermovac Lamination Process: uses MEK to hand-clean residual adhesive left on panel after old laminate removal
009	12.55 MMBtu/hour Natural Gas Fired Steam Boiler*

* *The requirements of 40 CFR 60, Subpart Dc - Standards of Performance for Small Industrial-Commercial-Institutional Steam Generating Units, do not apply to this boiler since it was manufactured in 1987.*
