Products Handling List

Group I – Dusty Fertilizers
(Those with moisture content < 4% and no prilling/processing to reduce dust levels)

Ammonium Sulfate
Standard Muriate of Potash
Granular Muriate of Potash
Standard Potassium Nitrate
Granular Sulfate of Potash
Standard Sulfate of Potash
Phosphate Products Rock
Granular Sulfate of Potash-Magnesium
Standard Sulfate of Potash-Magnesium

Group II – Minimally Dusty Fertilizers
(Those with moisture content of 4% or greater and/or those with prilling/processing to reduce dust levels)

Ammonium Nitrate
Calcium Ammonium Nitrate
Potassium Nitrate
Calcium Nitrate
Sodium Potassium Nitrate
Compound Fertilizers
Dried Sludge
Urea
Monoammonium Phosphate
Diammonium Phosphate
Granular Triple Superphosphate

Group III – Dusty Non-fertilizer Products
(Those with moisture content of <4% and no prilling/processing to reduce dust levels)

Gypsum
Pumice
Grains
Salt
Sand
Gravel
Magnetite/ferrous oxide
Millscale
Lime
Fly Ash

Group IV – Minimally Dusty Non-fertilizer Products
(Those with moisture content of 4% or more and/or those with prilling/processing to reduce dust levels)

Animal Feed Ingredient (AFI)
Kieserite
Ferrous Sulfate
Coal
Coal Slag
Petcoke
Lime Rock Stone
Alumina Hydrate
Vermiculite
Citrus Pellets
Dolomite
Glass
Iron Scrap Metal
Stone/rock
Wood chips
Filler Material
Peanut Hulls

Group V – Bauxite/Alumina

Bauxite
