Memorandum

Florida Department of
Environmental Protection

To: Rick Bradburn, Air Program Administrator

Through: Armando Sarasua, Air Permitting Supervisor

From: Debbie Moore, Project Engineer

Date: January 6, 2011

Subject: Title V Source Air Construction Permit
Project No. 0330042-015-AC
International Paper Company, Pensacola Mill
Modify B-Line Production Limit

The final permit for this project is attached for your approval and signature, which authorizes the elimination of the individual B-line pulp production limit while maintaining the total A-line and B-line pulp production limit, and physical changes to the No. 5 Paper Machine. The work will be performed in Escambia County at 375 Muscogee Road in Cantonment, Florida. The project results in a Title V source air construction permit and is not subject to PSD preconstruction review.

The attached Final Determination summarizes the publication and comment process. There are no pending petitions for administrative hearings or extensions of time in which to file a petition for an administrative hearing. I recommend your approval of the attached final permit for this project.
