Your application for this project has been received and reviewed for completeness. The following items are needed to complete your application.

1. Please provide page four of the application with the professional engineer seal and signature.
2. Please provide email addresses of applicant, professional engineer, and others, as this office intends to email the permit.
3. The application is for a FESOP; a five-year operating permit, and the permit will have monitoring requirements to show monthly emissions of VOCs and HAPs. Please provide record keeping to show the monthly emissions in 2004 to show compliance capability.
4. The application can be altered to have the facility as one emission unit. The emission unit will be the VOC/HAP emissions from gel coat production. Compliance would the emissions from the monthly facility wide production of gel coat. Please provide an altered application if desired. The agency could make the applicant provide emission estimates for each emission unit (batch mixer), as that is the way the application was provided to the agency.

Pursuant to Rule 62-4.055, the applicant shall have ninety days after the Department mails a timely request for additional information to submit that information to the Department. If an applicant requires more than ninety days in which to respond to a request for additional information, the applicant may notify the Department in writing of the circumstances, at which time the application shall be held in active status for one additional period of up to ninety days. Additional extensions shall be granted for good cause shown by the applicant. A showing that the applicant is making a diligent effort to obtain the requested additional information shall constitute good cause. Failure of an applicant to provide the timely requested information by the applicable deadline shall result in denial of the application.

If you have any questions, please fax me at 407.897.5963 or write to me at the above address.

Sincerely,

Alan Zahm
