FINAL DETERMINATION

PERMITTEE

Seaport Canaveral Corporation
555 Hwy 401
Cape Canaveral, FL 32920

PERMITTING AUTHORITY

Florida Department of Environmental Protection
Air Resource Management Section
Central District Office
3319 Maguire Boulevard, Suite 232
Orlando, Florida 32803-3767

PROJECT

Air Permit No. 0090219-007-AC
Major Source Air Construction Permit
Seaport Canaveral Terminal
Modifications

This project involves the modification of Tank 50-2. The fixed roof tank will be converted to an internal floating roof (IFR) tank. The construction permit authorizes the installation (after-the-fact) of two (2) emergency fire pumps and two (2) emergency generators. Additionally, it increases the facility non-fugitive VOC emission limit from less than 100 tons per any consecutive twelve months to less than 240 tons per any consecutive twelve months) and increases the allowable gasoline throughput of Emission Unit No. 001 from 589.4 to 772 million gallons.

NOTICE AND PUBLICATION

The Department distributed a draft major source air construction permit and draft Title V air operation permit package on February 20, 2012. The applicant published the Public Notice in the **Florida Today** on March 3, 2012. The Department received the proof of publication on March 13, 2012 (email) and March 15, 2012 (FEDEX). No requests for administrative hearings or requests for extensions of time to file a petition for administrative hearing were received.

COMMENTS

No comments on the Draft Permit were received from the public. A few minor corrections were requested by the applicant. The corrections were incorporated into the Final Construction Permit.

CONCLUSION

The final action is to issue the permit with the minor changes, corrections and clarifications as described above.
