Memorandum

Florida Department of
Environmental Protection

To: Rick Bradburn, Air Program Administrator

Through: Armando I. Sarasua, P.E., Air Permitting Supervisor

From: Angelia Jackson, Project Engineer

Date: September 22, 2011

Subject: Minor Source Air Construction Permit
Project No. 0630039-009-AC
Clover Leaf Gin, Marianna Plant
Dryer/Cyclone Replacement & Modification

The final permit for this project is attached for your approval and signature, which authorizes replacement of Tower Dryers #1 and #2 with more efficient Jet Dryers. The 52" diameter cyclones 3 and 4 will be replaced by new 54" diameter cyclones. The 52" diameter cyclones removed from 3 and 4 will in turn replace Cyclones 5 and 6. The work will be performed in Jackson County at 4455 Highway 162 in Marianna, Florida. The project results in a minor source air construction permit and is not subject to PSD preconstruction review.

The attached Final Determination summarizes the publication and comment process. There are no pending petitions for administrative hearings or extensions of time in which to file a petition for an administrative hearing. I recommend your approval of the attached final permit for this project.
