Dear Mr. Waryold:

This letter is in reference to your application for an air pollution source permit for the above referenced project. Copies of the DRAFT Construction Permit, Intent to Issue, Public Notice, Technical Evaluation and Preliminary Determination are enclosed.

Pursuant to Section 403.815, Florida Statutes and Rule 62-110.106, Florida Administrative Code, you are required to publish at your own expense a Notice of Intent to Issue Permit.

Please have the **PUBLIC NOTICE OF INTENT TO ISSUE PERMIT** published one time only in the legal advertisement section of a major newspaper of general circulation in Duval County, in the area close to where the project is located (affected areas) as soon as possible and no later than thirty (30) days from receipt of this notice.

The processing of the application will be delayed until fourteen (14) days after this office has received the proof of publication. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, FAC.

Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this notice. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.

Mediation is not available in this proceeding.

Please direct any questions regarding this matter to Mr. Harry D. Smith at (904) 255-7196.
