Re: Lee County - AP
Gulf Coast Landfill, Lee County
DEP File No. 0710133-014-AV

SUBJECT: Redrill well EW-73 and replace with new vertical well EW-73A
Abandon horizontal collector HC-00N/00S and replace with new well EW-77.

Dear Ms. Lersch:

The following subjects pertain to your email request dated June 2, 2011:

1.0 CAP Gas Collection Well No. EW-73 and replace with new well No. EW-73A

2.0 Abandon horizontal collector HC-00N/00S and Replace with new well No. EW-77

The Department of Environmental Protection acknowledges receipt of WM email letter dated June 2, 2011 pertaining to the abandonment of existing Gas Collection Well No. EW-73 and replacement with new vertical well EW-73A near the same location.

Horizontal Collector HC-00N/00S is to be abandoned and to be replaced with new vertical well No. EW-77.

With these new extraction wells, the site is to remain in compliance with 40 CFR 60.753(a) of the New Source Performance Standards (NSPS), which requires the operator to collect LFG from all landfill areas that are at interim grade and have had waste in place for at least 5 years or at final grade and waste in place for 2 years.

The above captioned email letter of June 2, 2011, states that "gas flows from well EW-73 and horizontal collectors HC-00N and HC-00S have declined over the past few years and even more rapidly over the past few months." Therefore the engineering consultants have recommended these actions to ensure continued NSPS coverage.

This approval is subject to the understanding that the planned work will NOT have any impact on the existing, permitted gas flare system. There will be NO emission increase.

"Quarterly surface emissions monitoring (SEM) has continually shown gas collection meets the operational standards for collection and control systems as required by Title 40 CFR Part 60.753 (d), or less than 500 parts per million (PPM)".

APPROVED:

It is **Approved**, that WMIF will abandon and replace one (1) gas well No. EW-73 with EW-73A, and Horizontal Collector HC-00N/00S is to be abandoned and to be replaced with new vertical well No. EW-77.

It is Approved, that WMIF shall not be required to obtain monthly PTO readings for well EW-73 and EW-77 for the month of June.

Any party to this order has the right to seek judicial review of it under section 120.68 of the Florida Statutes, by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the clerk of the Department of Environmental Protection in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station #35, Tallahassee, Florida 32399-3000, and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within thirty days after this order is filed with the clerk of the Department.

Executed in Fort Myers, Florida.
