FINAL DETERMINATION

PERMITTEE

Rayonier Performance Fibers, LLC
PO Box 2002
Fernandina Beach, FL 32035

PERMITTING AUTHORITY

Florida Department of Environmental Protection
Northeast District Office, Air Program
7825 Baymeadows Way, Suite B-200
Jacksonville, FL 32256

PROJECT

Air Permit No. 0890004-034-AC
Air Construction Permit
New Chlorine Dioxide Generator Plant No. 2

NOTICE AND PUBLICATION

The Department distributed a draft air construction permit package on September 12, 2011. The applicant published the Public Notice of Intent to Issue Air Permit in the **Fernandina Beach News-Leader** newspaper on September 28, 2011. The Department received the affidavit of proof of publication on October 28, 2011.

COMMENTS

One comment on the Draft Permit was received from the applicant (David Rogers, Environmental Manager for Rayonier Performance Fibers, LLC) on September 14, 2011 by e-mail. The applicant indicated that the new ClO_2 storage tank would be an 80,000 gallon capacity tank instead of a 40,000 gallon capacity tank. Upon review, this change would not affect the previous applicability analysis or result in an increase of regulated air pollutants for this project.

No requests for administrative hearings or requests for extensions of time to file a petition for an administrative hearing were received.

CONCLUSION

The final action is to issue the permit as distributed except for the new ClO_2 storage tank size change as detailed above.
