0530021-039-AC NOA letter - Signed.pdf

Lynn,

This is a Public Notice of Application, which we do for projects with potential heightened public concern.

I signed the cover letter, but it does not need clerking.

Please email.

Jeff

Subject: 0530021-039-AC CEMEX Brooksville South Cement Plant Alternative Fuels NOA

CEMEX Construction Materials Florida, LLC requests authorization to: construct mechanical and pneumatic material handling systems for introduction of alternative fuels into the existing preheater/precalciner kiln system and replace the main kiln burner to allow introduction of a variety of fuels to the existing Kiln No. 2 System for the Brooksville South Cement Plant located in Hernando County at 10311 Cement Plant Road in Brooksville, Florida. In addition, CEMEX Construction Materials Florida, LLC requests alternative fuels that are not hazardous, nuclear or radioactive at the Brooksville South Cement Plant to supplement the primary fuel of coal due to the economic benefit and reduction of greenhouse gases.
Attached is the Notice of Application for publication with the letter to the applicant for your electronic signature.
