Subject: Title V Permit For Hillsborough RRF
Date: Friday, June 15, 2012 10:38:47 AM

Hello Joe,

About a week ago, I've called you about a permit for Hillsborough County (ID:0570261). It was about getting clarification on the superscript on the fuel prohibition of "sewage sludge." Anyways, Scott Sheplak clarified that for me. It turned out that my eyes were bad and the superscript reference was there two pages later.

Anyways. I want to also clarify something. I've called you first because I had misplaced your involvement with Hillsborough's permit. I was heavily involved with Pasco RRF (ID:1010056)'s previous permit renewal. You were the permit writer for the Pasco RRF's previous permit renewal. So, I apologize for my own mix-up. Please accept my apology.

Second, on behalf of Hillsborough County, CDM smith is preparing to submit an application to request the removal of the term "sewage sludge" from our Title V/PSD permit. Now, I am assuming that you'll be the permit writer for Hillsborough and that I will submit the application to you since I'm itching to do this with paper only and not through the ESAP system. Are you the permit writer to whom I'll be submitting the application to? If so, can we have a call sometime this afternoon or even next week to answer some of my basic questions?

Please answer when time permits.

Sincerely,

Wei Liu | CDM Smith | 1715 North Westshore Blvd. Tampa, FL 33762 | Ph: 813-281-2900 | Fax: 813-288-8787 l Liuwt@cdmsmith.com | http://cdmsmith.com
