PROJECT

Permit No. 1050004-031-AV
C.D. McIntosh, Jr. Power Plant
Title V Air Operation Permit 2nd Revision

This project issues the Title V permit revision for this facility.

NOTICE AND PUBLICATION

The Department distributed a draft Title V Air Operating Permit package on January 6, 2012. The applicant published the Public Notice in the Ledger, a Lakeland local newspaper, on January 17, 2012. The Department received the proof of publication on January 17, 2012. No requests for administrative hearings or requests for extensions of time to file a petition for administrative hearing were received.

COMMENTS

There were no comments received from the public in response to the public notice. There was one informal comment received from EPA in response to the proposed permit requesting that Permit 1050004-023-AV, the originally issued Title V permit, be referenced as the permit that is the basis for this revision. Also, Rule 62-285 Florida Administrative Code was revised on February 16, 2012 to repeal the Heavy Duty Diesel Idling rule. As an administrative change in response to this, Appendix TV, Title V General Conditions was replaced with an updated version dated 2/16/12 to remove the condition related this repealed rule. No other changes were made to the permit revisions that were publicly noticed at the draft stage of this project.

CONCLUSION

The final action of the Department is to issue the permit with the minor changes as described above.
