Re: Hillsborough County Resource Recovery Facility (RRF), Facility ID No. 0570261
Request to revise PSD-FL-121D and PSD-FL-369C for removal of "sewage sludge" as a prohibited fuel

Dear Mr. Linero:

In accordance with Sections 120.60(1) and 403.0876, Florida Statutes and Rule 62-4.055(5), Florida Administrative Code, an application for a license (permit) must be approved or denied within 90 days after receipt by the Department of Environmental Protection. The 90-day period for the above referenced application ends on October 30, 2012.

On behalf of the applicant, Hillsborough County, please accept this request for additional time to allow CDM Smith to provide you with additional information that you need to fully evaluate the permit modification for removal of sewage sludge as a prohibited fuel. We estimate that we will need about two weeks (until Nov. 9th) to collect the historical facility operational data, perform the requested calculations, and have them reviewed for quality assurance by CDM Smith, Covanta, and the County.

Thanks you for your guidance and efforts over the past several days on this permit application.

Sincerely,

Paul L. Hauck, P.E.
