Hi Al. It appears they tested d/f on all 4 units in 2012. Will that info be sufficient? In the report summary they reported waste charging rate, but I expect I can find steam load in the report details. If not, I'll check with the facility.

Hi Max:

Can you find the steam rates at which Hillsborough County conducted most recent d/f tests on HCRRF Units 1, 2 and 3?

We are changing their process limits from waste throughput to steam flow and wondered what they are limited to as a result of annual tests.

Thanks.

Al Linero.
