APPENDIX CP

Compliance Plan For EU No. 053 - Auxiliary Boiler

In accordance with Rule 62-213.440(2), Florida Administrative Code (F.A.C.), this compliance plan is being included as a part of the Title V Operation Permit Renewal to bring the Mosaic Fertilizer, LLC - South Pierce Plant into compliance. The facility is located in Polk County at 7450 Highway 630 in Mulberry, Florida. Specifically, this compliance plan covers the auxiliary boiler (EU No. 53) included in Construction Permit 1050055-022-AC.

According to Rule 62-213.440(2), F.A.C., "the source shall meet measurable and enforceable milestones on no less than an semiannual basis until compliance is achieved and demonstrated to the Department. Each source shall notify the Department in writing, within 15 days after the date specified for completion of each milestone, to include the achievement of compliance, of progress achieved, requirements met, requirements not met, corrective measures adopted and an explanation of any measures not met by the completion date for the milestone or for compliance. All reports shall be accompanied by a certification, signed by a responsible official, in accordance with Rule 62-213.420(4), F.A.C."

The new or used boiler has not been constructed and full compliance with the applicable testing and recordkeeping conditions has not been demonstrated. In order to demonstrate compliance regarding the new or used boiler, Mosaic avers to the following:

1) Construction of the new or used boiler, with a heat input capacity not to exceed 100 mmBtu/hr, by September 2011.
2) Written notice of completion of construction date submitted to the Compliance Authority within 15 days of completion of construction of the new or used boiler.
3) Written notification of the initial startup date submitted to the Compliance Authority within 15 days of initial startup of the new or used boiler.
4) The most recent months of records as specified in Construction Permit 1050055-022-AC submitted to the Compliance Authority within ninety (90) days of initial startup of the new or used boiler.

Should Mosaic decide to not construct the new or used boiler, Mosaic will notify the Department within (30) days of that decision.

Note: This plan is based on the plan submitted by Mosaic Fertilizer, LLC dated July 11, 2011.
