Subject: FW: Gulf Coast Sanitary Landfill - Title V Air Operating Permit Revision Application
Date: Thursday, June 12, 2014 8:02:42 AM
Attachments: 2014-06-10 GCLF Title V Modification.pdf

Lynn log this and assign to Ed Svec. According to the application it is a Title V facility so no application fee is required.

Thank

David

Subject: Gulf Coast Sanitary Landfill - Title V Air Operating Permit Revision Application

Mr. Arif:

On behalf of Waste Management, Inc. of Florida (WMIF), CEC is submitting this electronic copy of the Title V Air Operating Permit Revision Application FDEP for the Gulf Coast Sanitary Landfill, which addresses the capping and removal of the GCCS at Gulf Coast. As demonstrated in the December 2013 submittal, the gas collection and control system may be capped and removed provided that the landfill is closed, the collection system has been operated a minimum of 15 years, and the NMOC concentration is less than 50 Mg per year for three successive test dates as stipulated in §60.752(b)(2)(v). Although the GCCS at GCLF will meet the removal criteria, WMIF intends is to keep the active GCCS in place and operational, although will no longer operate and report in accordance with the parameters in Title 40 of the Code of Federal Regulations (CFR) Part 60, Subpart WWW.

This application contains the necessary permit forms, certification from the facility Responsible Official, emissions calculations, and a listing of applicable regulations. CEC and WMIF request FDEP perform a completeness review on the attached Application and provide notification that the Application is Administratively Complete.

CEC and WMIF appreciate your assistance during this process. Please feel free to contact me at (813) 220-9790 if you have any questions or desire additional information concerning this

Application.
