Mulberry Cogeneration Facility

Title V Air Operation Permit Renewal
Final Permit No. 1050217-009-AV

Permitting Clock: ARMS Day 45 was September 8, 2012 (Saturday)

An electronic version of the final permit for this project is attached for your review and approval prior to sending to Jeff Koerner.

The purpose of this project is to renew the Title V air operation permit for the Mulberry Cogeneration Facility.

The attached final determination identifies issuance of the permit, summarizes the publication process, and provides the Department's response(s) to comment(s) (if any) on the draft permit. There are no pending petitions for administrative hearings or extensions of time to file a petition for an administrative hearing.

I recommend your approval of the final permit for this project. This is my first final renewal this cycle.
