Thanks for the opportunity to review the documents. Please find below initial comments.

DeBary:

Page 7 - A.10: remove "period" prior to new language.

Page 12 - B.17: Please remove the sentence "These values may be provided by...collected from the storage tank" as it is now redundant.

Page 17: Emission unit is noted as "023" at top of page. Should be "022".

Page 25 and 30: Change "Duck Energy" to "Duke Energy" at top of page.

Turner:

Page 15: "Duck Energy" issue...

This is all we have for now...

Thanks.

Subject: Preliminary Draft/Proposed Title V Permit Renewal for Turner and DeBary

Dear Mr. Hunter,

Here is a preliminary version of what will be a Draft/Proposed Title V Air Operation Permit Renewal for Turner Power Plant, Permit No. 1270020-005-AV and for Debary Power Plant, Permit No. 1270028-010-AV.

Attached are The Statement of Basis, which summarizes the facility, the equipment, the primary rule applicability, and the changes since the last Title V renewal, and The draft/proposed Title V air operation permit renewal, which includes the specific permit conditions that regulate the emissions units covered by the proposed project.

Within these draft/proposed permits, ~~strikethrough~~ formatting is used to denote the deletion of text, while double-underlines are used to denote the addition of text. All changes have also been emphasized with yellow highlight within the draft/proposed permit document for ease of location.

Please let me know if you have any comments on the Preliminary Draft/Proposed permits above by Friday, September 20, 2013.

Thank you

Sincerely,
Joe Attalla
