Title V Air Operation Permit Renewal
PROPOSED Permit No.: 0010046-007-AV

This Title V Air Operation Permit Renewal is issued under the provisions of Chapter 403, Florida Statutes (F.S.), and Florida Administrative Code (F.A.C.) Chapters 62-4, 62-210 and 62-213. The above named permittee is hereby authorized to operate the facility shown on the application and approved drawing(s), plans, and other documents, attached hereto or on file with the permitting authority, in accordance with the terms and conditions of this permit.

The subject of this permit is for the renewal of Title V Air Operation Permit and to rename EU001 Lid Module Nos. 1, 2, & 3.

Metal Container Corporation manufactures lids that are used for beverage cans. The Gainesville Lid Plant consists of shell presses, end liners, conversion presses, scrap cyclones, and ancillary support equipment used in the manufacturing beverage lids.

Emission Unit 001 identifies Lid Module Nos. 1, 2, & 3 and associated cleanup activities including maintenance solvent cleaning, the solvent recovery distillation unit, and the two end seal compound storage tanks. Process emissions associated with these activities are emitted to the atmosphere through the general building ventilation system that consists of a series of building stacks and vents.

Air Construction Permit (No. 0190011-004-AC) was issued to modify the permit AC01-265409/PSD-FL-153A and reclassify the facility as a PSD Synthetic Minor Source by limiting annual VOC emissions to 249 tons.

CAM does not apply.

Also included in this permit are miscellaneous insignificant emissions units and/or activities, which is updated by this permit renewal.

Based on the Title V Air Operation Permit Renewal application received March 27, 2008, this facility is not a major source of hazardous air pollutants (HAPs).
