APPENDIX I

LIST OF INSIGNIFICANT EMISSIONS UNITS AND/OR ACTIVITIES

The facilities, emissions units, or pollutant-emitting activities listed in Rule 62-210.300(3)(a), F.A.C., Categorical Exemptions, or that meet the criteria specified in Rule 62-210.300(3)(b)1., F.A.C., Generic Emissions Unit Exemption, are exempt from the permitting requirements of Chapters 62-210, 62-212 and 62-4, F.A.C.; provided, however, that exempt emissions units shall be subject to any applicable emission limiting standards and the emissions from exempt emissions units or activities shall be considered in determining the potential emissions of the facility containing such emissions units. Emissions units and pollutant-emitting activities exempt from permitting under Rules 62-210.300(3)(a) and (b)1., F.A.C., shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if they are contained within a Title V source; however, such emissions units and activities shall be considered insignificant for Title V purposes provided they also meet the criteria of Rule 62-213.430(6)(b), F.A.C. No emissions unit shall be entitled to an exemption from permitting under Rules 62-210.300(3)(a) and (b)1., F.A.C., if its emissions, in combination with the emissions of other units and activities at the facility, would cause the facility to emit or have the potential to emit any pollutant in such amount as to make the facility a Title V source.

The below listed emissions units and/or activities are considered insignificant pursuant to Rule 62-213.430(6), F.A.C.

Brief Description of Emissions Units and/or Activities

1. 5.0 MMBTU/hour Cincinnati Industrial Machinery natural gas fired dryer
2. 4.8 MMBTU/hour Cincinnati Industrial Machinery natural gas fired dryer
3. 11.25 MMBTU/hour Bryan natural gas boiler
4. Three 4.0 MMBTU/hour FECO Engineered Systems natural gas fired ovens
5. Two 6.3 MMBTU/hour Ross Division natural gas fired ovens
6. Propane powered equipment
7. Three K&B Model OM-18 Oil Mist Collectors
8. Two natural gas water heaters for employee showers
9. 8,421 gallon storage tank for brine
10. Six 10,000 gallon storage tanks for various products: overvarnish, soluble oil, internal coat, alkaline cleaner, basecoat, etc.
11. 30,000 gallon propane tank
12. Particulate matter from internal coating (baghouse)
13. Sludge Dryer – 0.04 MMBtu/hr burner
14. Natural Gas fired Space heaters
15. Lab vents
16. Lawn maintenance
17. Safety purging of natural gas lines on start-up
18. Safety purging of natural gas lines on start-up
19. Stationary fire pumps
20. Cuppers, bodymakers, trimmers, flangers, palletizers
21. Can Marking Identification System (letter July 16, 2003)
22. Brine storage tank
23. Can washers and dryoff ovens
24. HVAC Maintenance performed by outside contractors
25. Janitorial activities
26. Purging/venting ovens, gas lines, or other areas prior to igniting a burner or confined space entry
