Dear Mr. Long:

In a telephone conversation on January 5, 2011, Mr. K. C. Sviglin with Pensacola POC, Inc., brought to our attention that permit 7775278-005-AO for the Group III Asphalt Plant located in Cantonment, Escambia County contains incorrect information in the facility description regarding the asphalt heater.

By this letter, Section I, Subsection A. Facility Description (1st Paragraph) is changed as follows:

> This relocateable facility consists of a 300 ton per hour CMI model E3 300 P triple drum mix asphalt plant. The maximum heat input of the drum dryer (Hauck Starjet burner model 520) is 96.8 MMBtu per hour. Liquid asphalt is delivered by truck tankers, pumped into one of the two 24,000 gallon vertical storage tanks (model CT 24V), and is heated by a 2.82 MMBtu/hr hot oil heater (model CEI 2400) burning No. 2 fuel oil with a maximum sulfur content of ~~0.6%~~ 0.4% by weight. The plant is permitted to process recycled asphalt pavement (RAP).

All other facility-wide and specific conditions of the permit remain in effect. This letter shall be attached to and made a part of permit 7775278-005-AO.
