NOTICE OF FINAL PERMIT

In the Matter of an
Application for Permit by:

Sun Country Materials, LLC
5135 Madison Ave.
Tampa, Florida 33619

Permit No. 0571457-002-AV
Initial Title V Air Operation Permit
Hillsborough County

Responsible Official:
Kirk Wills, South Region Engineer

Enclosed is the final permit package for the initial Title V air operation permit for Sun Country Materials, LLC. The existing facility is located in Hillsborough County at 11457 County Road 672, Riverview, Florida. This permit is issued pursuant to Chapter 403, Florida Statutes.

Any party to this order has the right to seek judicial review of it under Section 120.68 of the Florida Statutes by filing a notice of appeal under Rule 9.110 of the Florida Rules of Appellate Procedure with the Environmental Protection Commission of Hillsborough County's Legal Office, 3629 Queen Palm Drive, Tampa, FL 33619 and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate District Court of Appeal. The notice must be filed within 30 days after this order is filed with the clerk of the EPCHC.

Executed in Tampa, Florida.

Environmental Protection Commission
of Hillsborough County

PROJECT

Initial Title V Air Operation Permit
Permit No. 0571457-002-AV

The purpose of this project is to issue the initial Title V Air Operation Permit No. 0571457-002-AV. This permit authorizes the operation of a Candlestick Flare, which is used to combust gas and to control odors from the disposal facility.

NOTICE AND PUBLICATION

The EPCHC distributed a Draft/Proposed Intent to Issue Air Permit package on April 7, 2017. The applicant published the Public Notice of Intent to Issue Air Permit in the Tampa Bay Times on April 26, 2017. The EPCHC received the proof of publication on April 27, 2017. A proposed permit was issued for EPA review on April 26, 2017.

COMMENTS

No comments on the proposed permit were received from the EPA Region 4 Office.

One comment was received via email from the applicant on April 17, 2017. The following summarizes the comment and the EPCHC's response. This comment did not result in a significant change to the draft permit. Therefore, an additional public notice was not required.

Comment No. 1: In the process description, reference is made to "a series of vacuum pumps and piping". The use of the term "a series of vacuum pumps" is not technically correct and should be changed to "a blower" or "a blower that applies vacuum to the collection piping".

Response: As requested by the permittee, the paragraph is changed as follows to more accurately reflect the operation.

From:
The gas from these areas is vented to the flare using a gas collection system, which consists of a series of vacuum pumps and piping.

To:
The gas from these areas is vented to the flare using a gas collection system, which consists of collection piping and a blower that applies a vacuum to the collection piping.

CONCLUSION

The final action of the Department is to issue the permit with the minor changes listed above.
