P.E. CERTIFICATION STATEMENT

PERMITTEE

Clover Leaf Gin, Inc.
Post Office Box 366
Donalsonville, Georgia 39845

Project No. 0630039-009-AC
Marianna Plant
Minor Source Air Construction Permit
Dryer/Cyclone Replacement & Modification
Jackson County, Florida

PROJECT DESCRIPTION

This construction permit authorizes the replacement of Tower Dryer #1 and #2 with Jet Dryers of the same heat input of 8 MMBtu/hr and 4 MMBtu/hr, respectively. The new Jet Dryers will be fired exclusively by LP gas. This construction permit also authorizes the replacement of the existing 52" diameter cyclones 3 and 4 by new 54" diameter cyclones and using the 52" diameter cyclones removed from cyclones 3 and4 to replace the existing 46" diameter Cyclones 5 and 6.

These changes do not result in any increases in actual or potential emissions of particulate matter. All other standards of Air Permit 0630039-008-AO remain unaffected. All capacity, operational and hour limits will remain the same.

The Department's full review of the project and rationale for issuing the draft permit is provided in the Technical Evaluation and Preliminary Determination.

I HEREBY CERTIFY *that the air pollution control engineering features described in the above referenced application and subject to the proposed permit conditions provide reasonable assurance of compliance with applicable provisions of Chapter 403, Florida Statutes, and Florida Administrative Code Chapters 62-4 and 62-204 through 62-297. However, I have not evaluated and I do not certify any other aspects of the proposal (including, but not limited to, the electrical, mechanical, structural, hydrological, geological, and meteorological features).*
