RE: Annual Visible Emissions Compliance Test Report
Tire Retreading Plant
(2) Tire Grinding Machines with Cyclones – EU 001
Dissolution Application Spray Booth – EU 002
Test Date: December 15, 2009
Permit Number: 031-0489-004-AO

Dear Mr. Koranda:

This is to acknowledge receipt and acceptance of the above captioned test report, submitted December 18, 2009. Tire Centers LLC has fulfilled the requirements of emissions testing as stipulated in the referenced permit for emission unit (EU) numbers 001 and 002.

It is noted, however, that the permitted process rate of 10.31 lbs. per hour for EU 002 was not achieved during the test period. Consequently, Tire Centers LLC shall now be limited to a maximum process rate of 6.93 lbs. per hour (6.3 lbs/hr x 110%), as per Specific Condition number 3, page 4 of 7, of the above referenced permit. At such time as a satisfactory test is performed at an input rate which is 90-100% of the permitted input rate, this limitation will be rescinded.

If there are any questions concerning this matter, please contact Mr. Wayne Walker at (904) 255-7186.

Very truly yours,

Wayne E. Tutt
