Ed & Jeff,

First, I wanted to personally thank you for your assistance with the permitting process for the Cape Canaveral facility. Since the permitting of the Cape Canaveral facility is somewhat unique, I do have a questions for FDEP in regards to this matter. Sea Ray has a Synthetic Minor Source Air Construction Permit as well as a Title V Operation Permit for it Cape Canaveral facility. Does the Title V Operation Permit also serve as the Synthetic Minor Source Air Operation Permit? If not, then Sea Ray needs to submit a Synthetic Minor Source Operation Permit application. Correct?

Once I receive your response, then Sea Ray will complete any additional air permit application if necessary. Thanks.

Thank you,

Randy Clunie
