Thanks Tom. So far we've been pretty lucky as far as cold temperatures go, that and keeping the other two digester gas fueled generators going, so I have heard of any problems with not being able to keep the anaerobic sewage sludge digesters up to temperatures.

Subject: Permit Status

Hi Richard – thanks for the inquiry. The draft permit package has been prepared, and it is currently with Syed Arif, Permitting Section Supervisor, for review. It was peer reviewed internally by my associate, Ed Svec.
