Good afternoon Mr. Linero,

We can get those files for you. How many years of test results should we send?

Thank you for your help with this request.

Subject: Very Preliminary Draft, Hardee Unit CT2-B

Tom, Matt:

Here is a very preliminary version of what we expect to send out as a draft to notice in about 1 week.

The changes are marked in strikeout and underline format and highlighted in yellow.

This is related to the excess emissions from tuning Unit CT2-B and reducing testing for VOC and visible emissions.

By the way, do you have results for the testing over the years.

I can see from our system that all of those passed.

Let me know of any changes we still need to make and then I'll send the package around for internal review and give you another draft soon to actually notice.

Thank you.

Al Linero.
