Mr. Arif,

We've reviewed the draft Title V Permit received on January 13, 2014 and have only a few minor comments and/or corrections as follows:

Written Notice of Intent to Issue Air Permit

Project:

The Permit number is incorrectly noted to be Permit No. 0230047-002-AV.

Section I. Facility Information

Subsection A. Facility Description:

The second paragraph of this section identifies that the Notice of Intent to Issue Permit No. 0130719-016-SC/00 for the 20-acre lateral expansion of the Ash Monofill was issued by the Department's Solid Waste Program on October 22, 2013. The Department may wish to revise this language as the final permit for the Ash Monofill expansion was issued on November 20, 2013. This language is found in other sections of the Draft Title V Air Operation Permit, e.g., Statement of Basis.

Section II. Facility-Wide Conditions

The Permit Table of Contents indicates that the Facility-Wide Conditions are in Section II which begins on page 4 of the Permit. It appears that the page numbering and/or headings are incorrect as the Facility-Wide Conditions begin on page 5 of the Permit (there is no page 4) and the heading on page 5 is 'Section I. Facility Information'.

Please let me know if you have any questions. Thanks, Laura Gray
