Subject: A new application was submitted in EPSAP on FDEP
Date: Friday, January 16, 2015 4:15:10 PM

A new Long Form application was submitted in EPSAP for the following facility:

Application Number: 3907-1
Facility ID: 0810010
Facility Name: FLORIDA POWER & LIGHT (PMT)
Site Name: MANATEE POWER PLANT
County: Manatee
Facility Office: FDEP Division of Air Resource Management

Application Purpose: Title V air operation permit revision.

Application Comment: The purpose of this application is to incorporate Permit No.0810010-020-AC into the facility`s Title V Air Operation permit. This permit authorizes GE.04 upgrades for Unit 3 as well as adjustments in permitted capacity due to the upgrades. The separate NSPS KKKK Applicability Analysis will be attached in the Facility Section of this application, along with AC 0810010-020-AC. Lastly, the GE.04 permit edits the facility description of Unit 3 to remove reference to a `bypass` stack and `simple cycle` operation. Please note, however, that Unit 3 still has authorization in the current Title V permit to allow steam dumped to the condenser, specific condition B.12.
