Subject: MODIFICATION APPLICATION NO. 0810010-021-AV, MANATEE POWER PLANT

Dear Applicant:

Our office has received the air pollution permit application that you submitted for the project described below:

Facility Owner/Company Name: FLORIDA POWER & LIGHT (PMT)
Site Name: MANATEE POWER PLANT
Project Name: AB355: UPGRADE FOR UNIT 3
Project Description: The purpose of this application is to incorporate Permit No.0810010-020-AC into the facilitys Title V Air Operation permit. This permit authorizes GE.04 upgrades for Unit 3 as well as adjustments in permitted capacity due to the upgrades. The separate NSPS KKKK Applicability Analysis will be attached in the Facility Section of this application, along with AC 0810010-020-AC. Lastly, the GE.04 permit edits the facility description of Unit 3 to remove reference to a bypass stack and simple cycle operation. Please note, however, that Unit 3 still has authorization in the current Title V permit to allow steam dumped to the condenser, specific condition B.12.
