Subject: Written Comments - DRAFT Air Permit No. 0990234-032-AC (PSD-FL-413C) Palm Beach Renewable Energy Facility No.2

Hi John,

We have completed our review of the DRAFT Air Permit No. 0990234-032-AC (PSD-FL-413C) for Palm Beach Renewable Energy No. 2 (PBREF-2) and are providing comments. Our comments are minor and serve to clarify the draft permit language and to correct typographical errors. This email serves as our written comments that are due 14 days from the date of publication of the Public Notice which occurred on November 18, 2014 (the 14-day comment period ends December 2, 2014).

Below are our comments on the draft permit:

- Page 3 of 28, first sentence above table. Change PBREF-1 to PBREP and delete “facility”.
- Page 6 of 28, last paragraph, first sentence. Change "demoted" to "denoted."
- Page 8 of 28, Section 3.A.2.d, the heading. Change "Activate" to "Activated" [CI System and FF Baghouse].
- Page 8 of 28, Section 3.A.3 (Aqueous Ammonia or Urea Storage Tank), third sentence. Revise to state: The tank "shall be" designed and fabricated .
- Page 18 of 28, Section 3.A.35.d. Change the first sentence to state: Each day the weight of each "load of" segregated non-MSW material . . . Change the second sentence to state: "At the end of each calendar month, the resultant monthly total weight of each type of segregated load of non-MSW material . . . ."

We appreciate the Department’s time and effort that has gone into this permitting process. If you have any questions or need additional information, please contact me at mmorrison@swa.org or (561) 640-4000 ext. 4613 .

Sincerely,

Mary Beth Morrison
Environmental Programs Manager
Solid Waste Authority of Palm Beach County
