Re: Request for an Extension of Time to Respond to RAI
FDEP Project No: 1050234-018-AC
Hines Energy Complex Air Construction Permit Application
Florida Power Corporation d/b/a Progress Energy Florida, Inc.
Facility ID No: 1050234
Polk County

Dear Mr. Holtom:

Based on discussions with you and Mr. Kris Lanh of your staff, Progress Energy Florida, Inc. (PEF) requests an extension of time for an additional sixty (60) days in order to respond adequately to the Request for Additional Information (RAI) addressing the Hines Energy Complex (Facility ID No. 1050234) Air Construction (AC) permit application. The Florida Department of Environmental Protection's (FDEP) Division of Air Resource Management (DARM) project number associated with this application is 1050234-0180-AC. This extension is being requested simply because PEF has had some difficulty with emission data associated with requested changes in emission limits. In addition ,several new major air emission regulations have been promulgated within the last sixty (60) days which has required extensive resources and personnel to analysis potential impacts to PEF power generation. This has stretch made it difficult to address the Department's questions raised in the RAI in a timely matter.

If the Department requires additional information regarding this request, please contact me via e-mail at Chris.Bradley@pgnmail.com or by telephone at (727) 820-5962.

Sincerely,

Chris Bradley
Sr. Environmental Specialist
Progress Energy Florida, Inc.
