Unfortunately due to the short week Buckeye was not able to get the signatures for the application to send it in this week. It will have to be next week. Thanks.

Mr. Buff,

I was checking on the status of the "short" application form, along with the PE seal we discussed with you on the call last week (see correspondence below).

The department will have to send an RAI tomorrow if the information has not been received by COB today. I apologies for the inconvenience during a holiday week, but would like to send the draft package to Buckeye soon and cannot do so until the application has been submitted.

If you have any questions or concerns please call or email Al or myself.
Thank you,
Leigh-Ann Pell

Hey Dave (Buff):

Are you out there?

We are hoping to finish this up soon and avoid sending a request for additional information.

Ray: have you heard from Dave Buff?

Thanks.

Al.

Subject: Foley Energy Independence Project

Hey Dave (Buff):

We are working on the attached extension request submitted by Buckeye Technologies.

I spoke with Ray Perry today and let him know that an application is required to modify the staged air system on Recovery Boiler No. 3.

He agreed I could discuss the matter with you to get what we need.

I think you can take the elements of the letter and submit the four pages or so of the basic application form with the appropriate signatures and P.E. seal.

Of course, submit anything else you think is worth considering.

We'll call it a revision (or modification) and extension of the Foley Energy Independence Project.

They will need to make sure they don't have an 18-month gap in work.

We are well on our way to completing the basic extension and revision so the only delay would be submittal of the application.

If you have any questions, please call Leigh Ann at 850-717-9033 or give me a call.

Thanks.

Al Linero.
