Subject: Gilman -Perry Site Visit
Date: Thursday, August 07, 2014 9:50:54 AM

Thank you for our conversation and your recent site visit. Based on our conversation, this is to confirm that we will proceed with the following steps:

1. The new kiln is expected to start operations by Sept. 1, 2014 or later.
2. We will inform you of the startup date.
3. The BMP will be prepared and submitted as soon the Kiln parameters are set, I expect to have it to you and Tallahassee by Sept, 15th,
4. We will schedule a VE test of the New Kiln and Old Kilns and Boiler, only if we plan on continued operations.
5. As you are aware the construction permit gives us plenty of flexibility, we however intend to go to the new system full time as soon as possible.

Once again, appreciate your site visit and courtesies and hope to work with you and Headquarter pee mitting on these and other issues of mutual concern
