Appendix I-1, List of Insignificant Emissions Units and/or Activities.

The facilities, emissions units, or pollutant-emitting activities listed in Rule 62-210.300(3)(a), F.A.C., Categorical and Conditional Exemptions, or that meet the criteria specified in Rule 62-210.300(3)(b)1., F.A.C., Generic Emissions Unit or Activity Exemptions, are exempt from the permitting requirements of Chapters 62-210, 62-212 and 62-4, F.A.C.; provided, however, that exempt emissions units shall be subject to any applicable emission limiting standards and the emissions from exempt emissions units or activities shall be considered in determining the potential emissions of the facility containing such emissions units. Emissions units and pollutant-emitting activities exempt from permitting under Rules 62-210.300(3)(a) and (b)1., F.A.C., shall not be exempt from the permitting requirements of Chapter 62-213, F.A.C., if they are contained within a Title V source; however, such emissions units and activities shall be considered insignificant for Title V purposes provided they also meet the criteria of Rule 62-213.430(6)(b), F.A.C. No emissions unit shall be entitled to an exemption from permitting under Rules 62-210.300(3)(a) and (b)1., F.A.C., if its emissions, in combination with the emissions of other units and activities at the facility, would cause the facility to emit or have the potential to emit any pollutant in such amount as to make the facility a Title V source.

The below listed emissions units and/or activities are considered insignificant pursuant to Rule 62-213.430(6), F.A.C.

1. Scrap Tire Recycling Operation
2. White Goods Storage Area
3. Construction and Demolition (C&D) Debris Recovery activities (sorted to remove large pieces of metal, wood and concrete, and then ground in concrete crusher* and used as landfill cover)
4. Leachate Storage Tank (1.8 million gallon storage tank for storage of leachate from the Class I landfill disposal area, periodically removed from tank for treatment)
5. Maintenance Building Activities (vehicle repair and maintenance)
6. Scrap metal storage
7. Yard waste processing, grinding (in wood waste grinder*) and storage activities
8. Oil, gas and battery removal from lawn mowers and similar equipment
9. Temporary used oil storage
10. Vehicle refueling and associated fuel storage (categorically exempt by Rule 62-210.300(3)(a)34.,F.A.C.)

**Diesel Engine Note – See Appendix U-1, EU No. 005, for the diesel engines that power the concrete crusher and wood waste grinder.*
